

According to the United States Census Bureau, the earth's population reached seven billion in March 2012.

1. Assume the world population in the year 2012 was 7,000,000,000.

Of this population how many people were Hindus?

$$7,000,000,000 \times .15 = 1,050,000,000$$

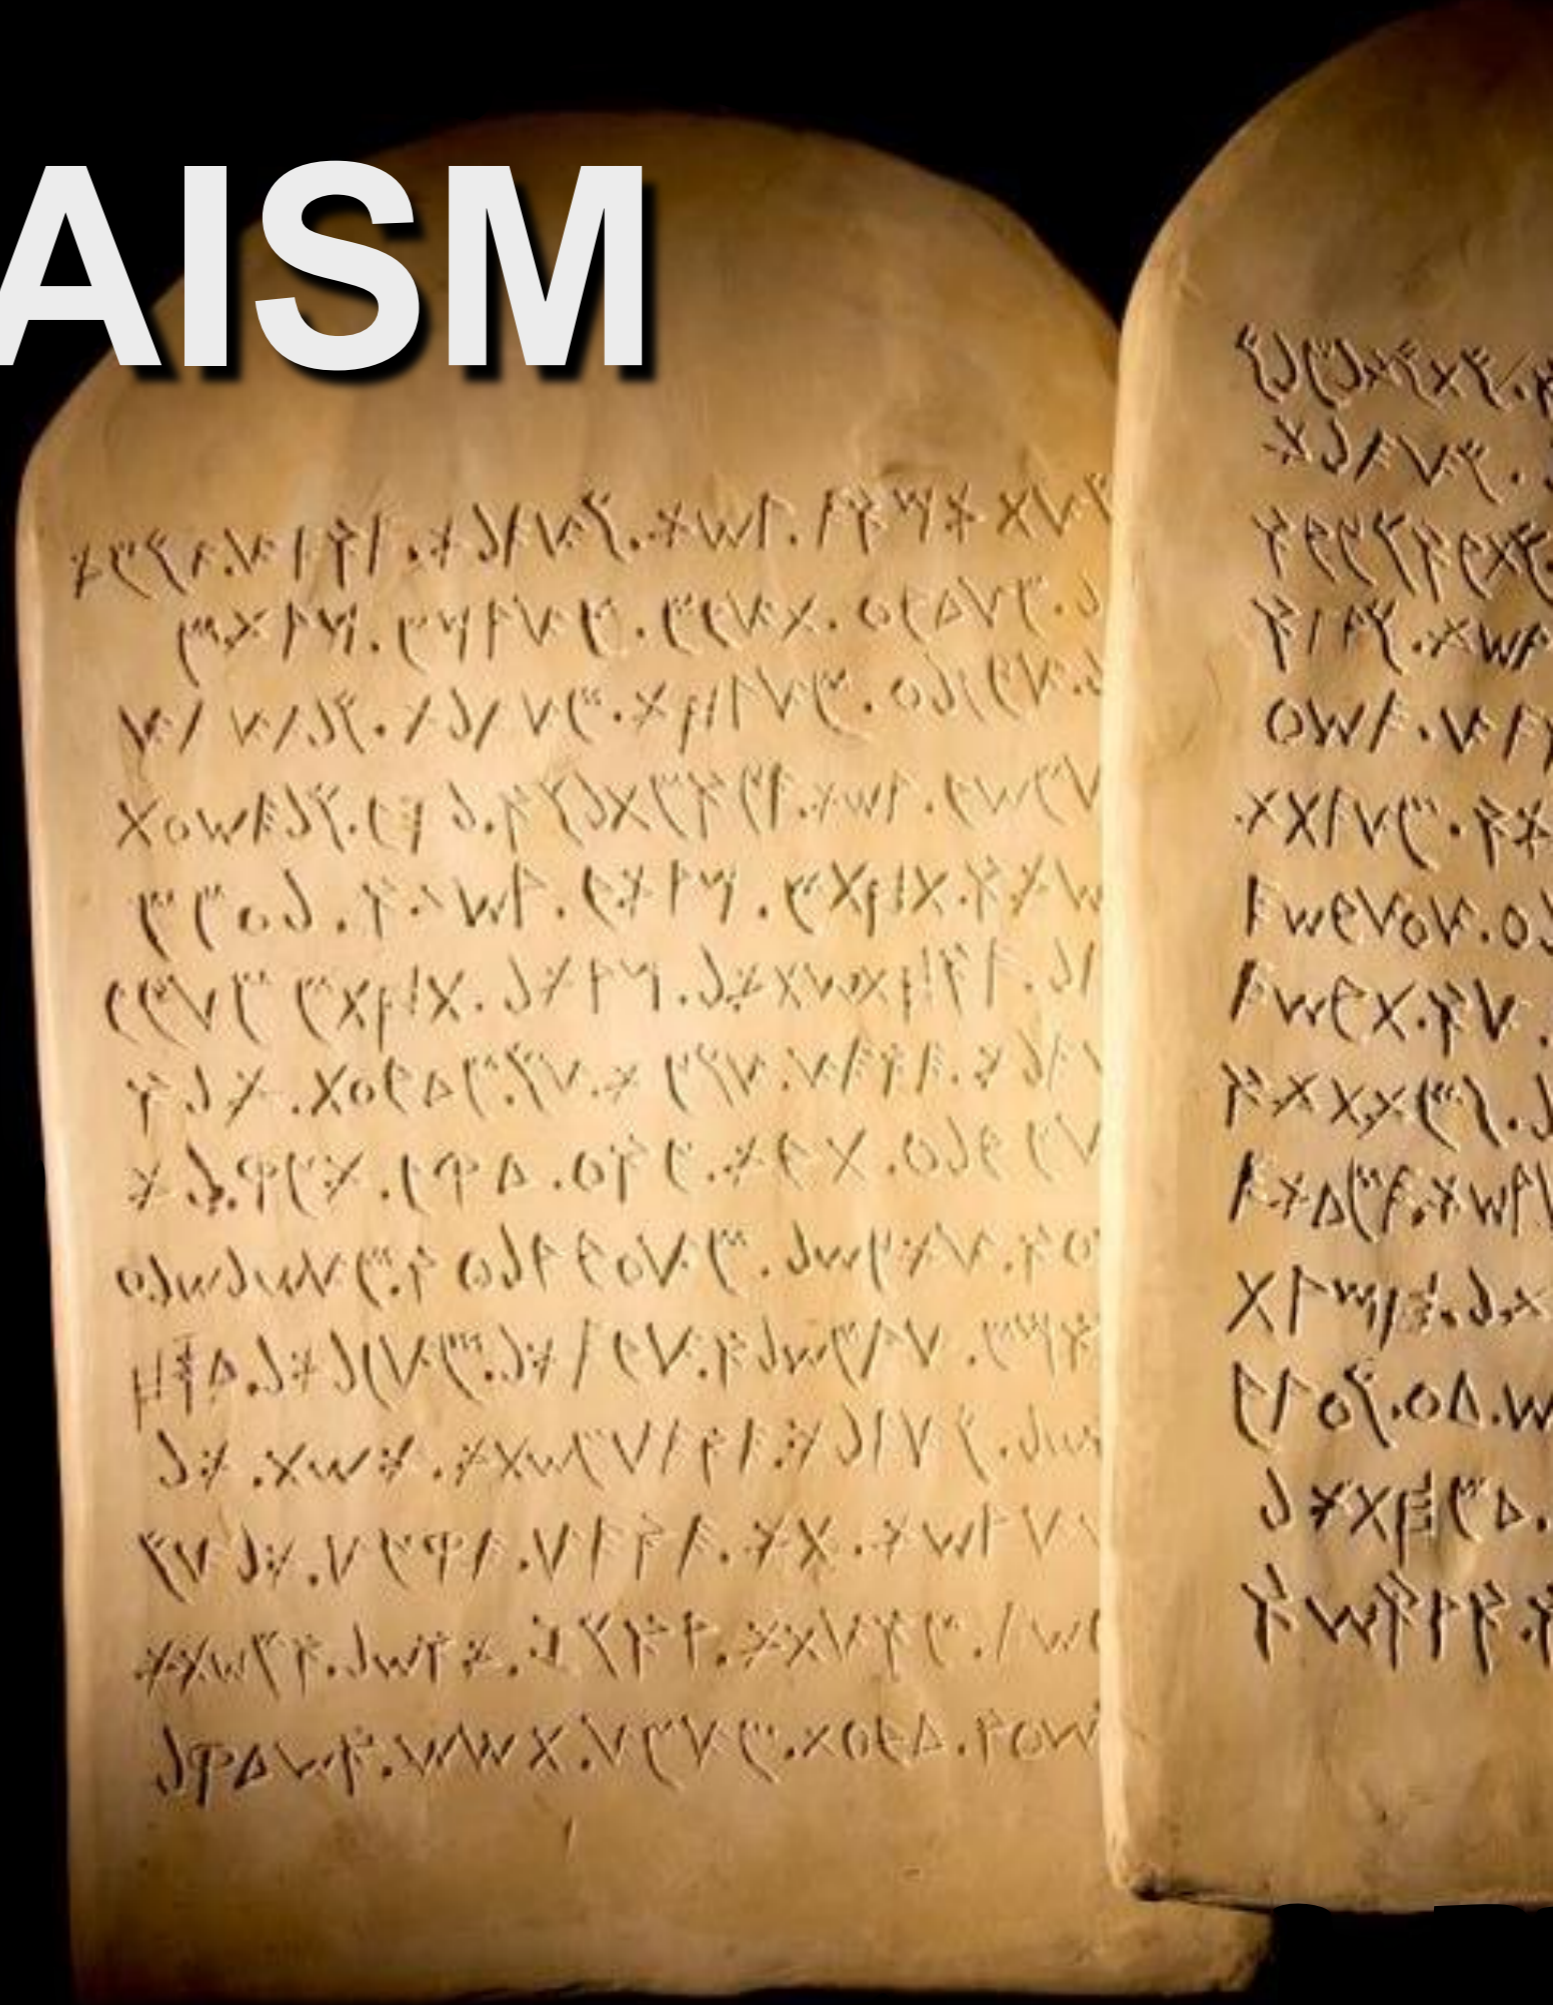

2. If the population of Christians in the year 2000 was 50,000 what would the population of the world have been?

$$\frac{33\%}{100\%} = \frac{50,000}{?} = 50,000 \times 1.00 = 50,000 / .33 = 151,515$$

Check - 100% = 1.00 33% = .33

THIRD LARGEST RELIGION IN THE WORLD

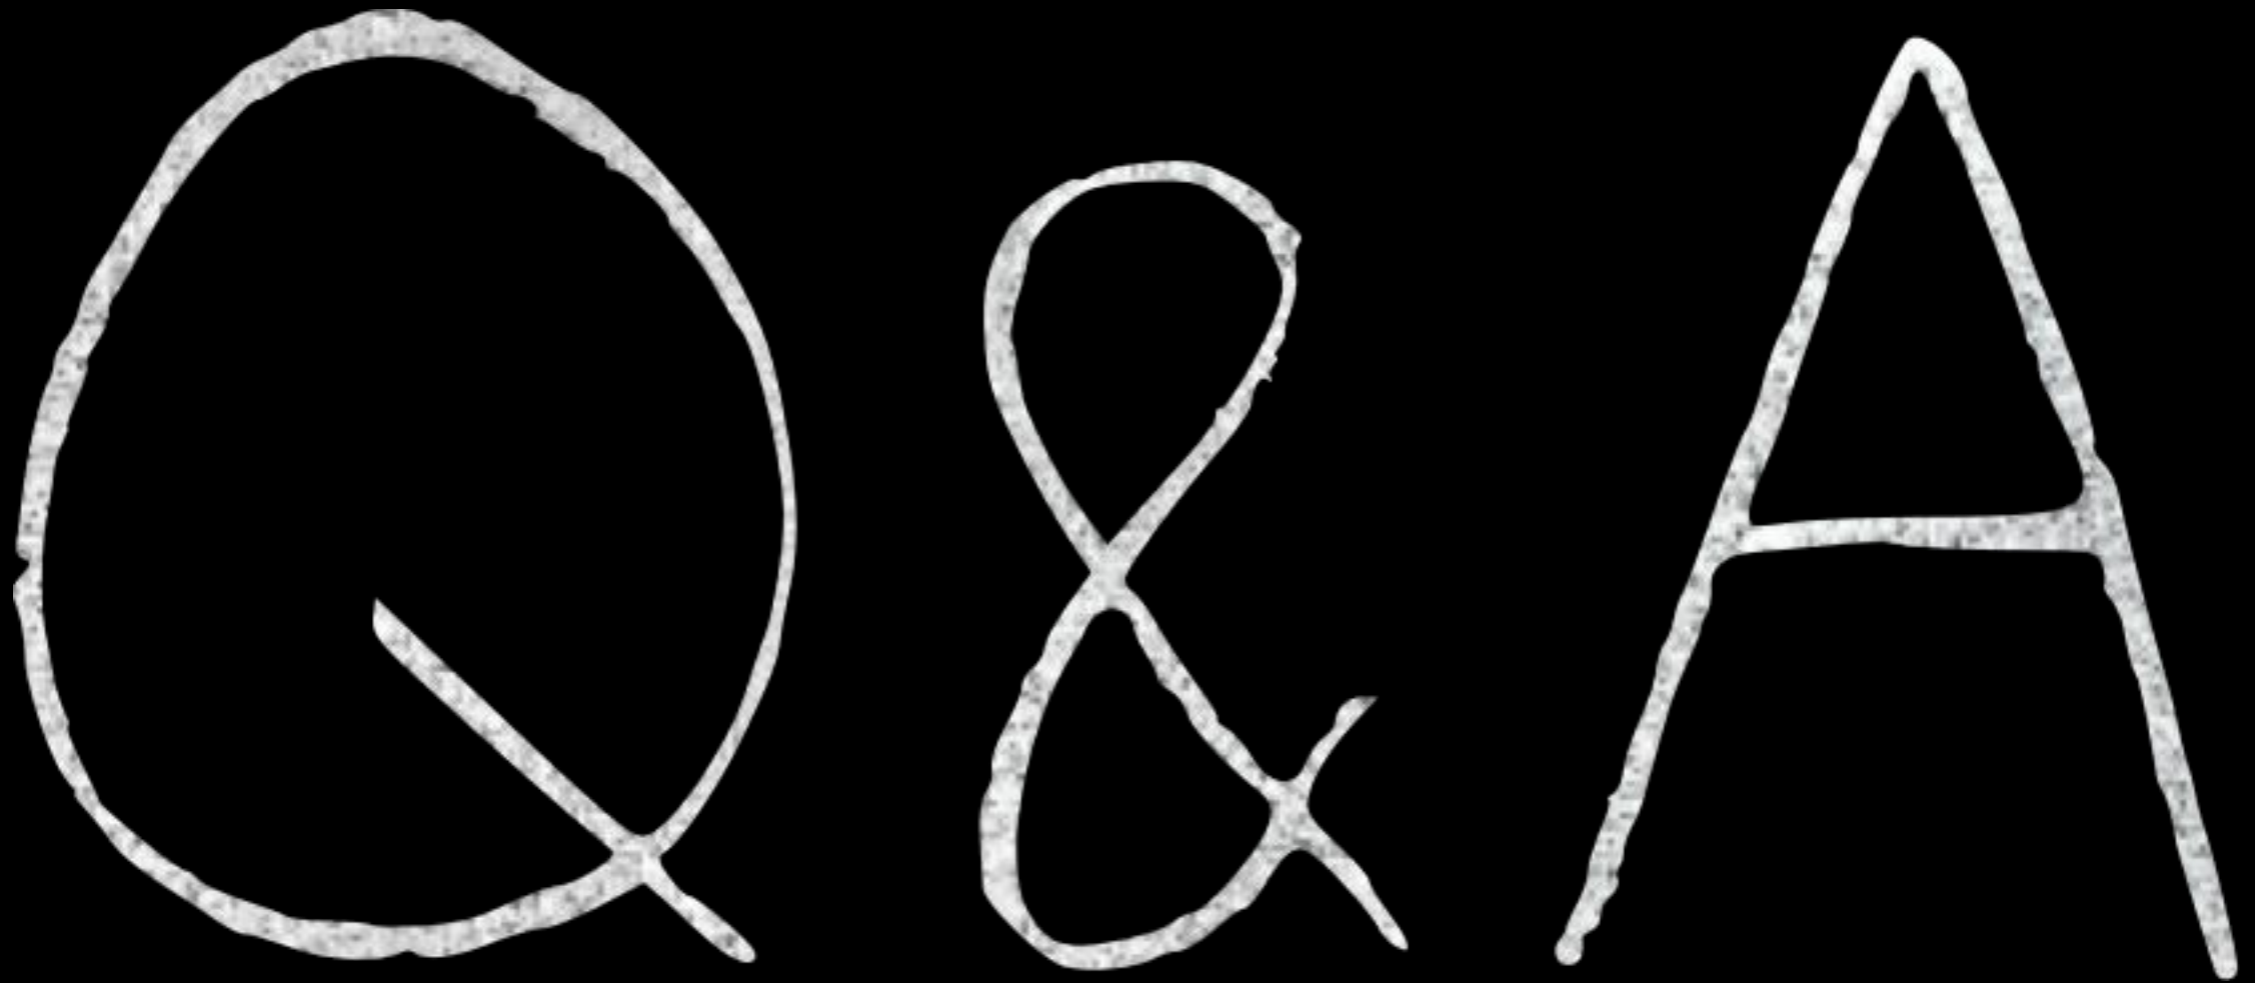

A wide-angle photograph capturing a massive gathering of people along the banks of the Ganges River in India. The scene is filled with a dense crowd of individuals, many of whom are holding large, light-colored umbrellas to shield themselves from the sun. In the background, a prominent red temple with a tall, pointed spire stands out against the clear blue sky. The river's surface is visible in the lower right, where some people are wading or bathing. The overall atmosphere is one of a significant religious event or pilgrimage.

Each year, thousands of Hindus make a **pilgrimage to India's Ganges River**. The Ganges is considered a sacred site in the Hindu religion. Most Hindus come to bathe in the water. They believe it will cleanse and purify them. The sick and disabled come in the belief that the holy water might cure their ailments.

THIRD LARGEST RELIGION IN THE WORLD

Each spring, Hindus in India celebrate the **festival of Holi**. Holi symbolizes the triumph of good over evil. The festival recalls the story of Prince Prahlada, who faced death rather than cease worshiping Vishnu. During this celebration, people dance in the streets and shower each other with colored powder and dyed water.
